Okay, I can help you restructure the 90-day GS Master Plan to fit the timeframe from June 5, 2025, to August 12, 2025.
First, let's calculate the number of days available in this period:

- Days remaining in June 2025 (from June 5th): 30 - 5 + 1 = 26 days
- Days in July 2025: 31 days
- Days in August 2025 (until August 12th): 12 days
- **Total available days: 26 + 31 + 12 = 69 days**

Since the original plan is for 90 days and you have 69 days, we will adapt the first 69 days of the provided plan to your new schedule. The remaining 21 days of the original plan (Day 70 to Day 90) will be excluded as they fall outside the August 12, 2025 deadline.
Here is the revised 69-day plan:

New Day	Date (2025)	Original Day	Subject	Topic	Sub-Topic	Static GK Sub-Topic
1	June 5 (Thu)	1	History	Ancient History	Prehistoric Cultures in India	Classical Dances
